Education

California State University, Fresno

Bachelors of Science in Computer Science

Aug. 2022 – May 2026

3.75/4.0 GPA

Relevant Coursework

- Data Structures and Algorithms
- Database Systems
- Computer Security
- Operating Systems
- Computer Organization
- Biometric Security
- Computer Systems
- Software Engineering

Experience

Visual Impact Tech.

January 2025 – Present

Software Engineering Intern

Fresno, CA

- Developed and maintained cross-platform applications using React Native (Expo), Angular, and ASP.NET Core across mobile, TV, web, and backend systems.
- Implemented and debugged API endpoints and SQL-backed data flows, resolving production issues and improving system reliability.
- Diagnosed and fixed issues across navigation, state management, and API integrations, improving app stability and release consistency.

Projects

Derby Days Philanthropy Platform — Next.js, Prisma, PostgreSQL, TailwindCSS (Solo)

- Built and deployed a full-stack web platform for Sigma Chi's annual philanthropy, featuring team pages, donation leaderboards, user profiles, and a live sports-style draft system.
- Drove over \$28,000 in donations for Valley Children's Hospital through the platform, driving an 833% year-over-year increase in total funds raised.
- Scaled the platform to handle 1,000+ transactions across hundreds of users, supporting real-time donation tracking and leaderboard updates.

Study Buddy — React Native, Supabase, Expo, PostgreSQL (Group)

- Built core functionality for a student social and academic support app, including authentication, user profiles, matching logic, professor reviews, and real-time chat.
- Led system requirements definition, sprint planning, and cross-team coordination to deliver all high-priority features in a group development environment.
- Designed and implemented a scalable backend using Supabase and PostgreSQL, with schema and query optimization to support low-latency API access and future user growth.

Technical Skills

Languages: TypeScript, JavaScript, Python, C#, SQL, HTML, CSS

Frameworks: Next.js, Node.js, React, React Native, ASP.NET Core, Expo, Angular

Developer Tools: Claude Code, Docker, Supabase, Git, VS Code, Redux, TailwindCSS, Prisma, Stripe API

Leadership

Peer Mentor for College of Science and Mathematics

Aug. 2024 – May 2025

- Facilitated academic success for a group of first-year students through one-on-one mentoring sessions
- Created study plans and built positive relationships with mentees
- Mentored students through academic and transitional challenges during their first year of college.

Sigma Chi Fraternity

Aug. 2022 – May 2026

- Led philanthropic efforts to raise over \$40,000 for Valley Children's Hospital
- Maintained accurate records, reports, and minutes of chapter meetings, ensuring transparency and accountability within the fraternity of 50+ members.
- Collaborated closely with the President and VP to ensure effective leadership and decision making within the fraternity
